## Job Description

We are seeking a talented Microservices Engineer to join our engineering team. You will be responsible for building and maintaining scalable backend services that power our applications. This role requires strong problem-solving skills and experience with modern backend technologies.

## Key Responsibilities

- Implement authentication and authorization mechanisms
- Write clean, maintainable, and well-documented code
- Design and implement scalable backend services and RESTful APIs
- Collaborate with frontend developers to integrate APIs
- Participate in code reviews and technical discussions
- Monitor application performance and troubleshoot issues
- Optimize database queries and ensure data integrity

## Required Skills

- Spring Boot
- Express.js
- Node.js
- Redis
- Microservices
- REST API
- TypeScript
- JavaScript

## Preferred Skills

- MongoDB
- GraphQL
- PostgreSQL
- Java

## Requirements

- Bachelor's or Master's degree in Computer Science, Engineering, or related field
- Strong problem-solving and analytical skills
- Excellent communication and teamwork abilities
- Passion for technology and continuous learning
- 5+ years of professional experience
- Experience mentoring junior developers
- Strong leadership and architectural skills

## Benefits

- Latest technology equipment
- Health insurance coverage
- Career advancement opportunities
- Annual training allowance
- Performance bonuses
- Competitive salary package
