Job Description

We are hiring a Data Scientist to help us unlock insights from our data. You will design and build data pipelines, develop ML models, and work with large-scale datasets to solve complex business problems.

Key Responsibilities

- Develop machine learning models and algorithms
- Collaborate with data scientists and analysts
- Process and analyze large datasets
- Optimize data processing and storage
- Deploy ML models to production
- Implement data quality checks and monitoring

Required Skills

- Airflow
- Python

- Pandas
- Hadoop
- Spark
- Kafka

Preferred Skills

- TensorFlow
- SQL

Requirements

- Bachelor's or Master's degree in Computer Science, Engineering, or related field
- Strong problem-solving and analytical skills
- Excellent communication and teamwork abilities
- Passion for technology and continuous learning
- 0-2 years of professional experience
- Understanding of software development fundamentals

Benefits

- Team building activities
- Remote work options
- Performance bonuses
- Parental leave
- Flexible working hours
- Health insurance coverage
