Job Description

We are seeking a talented Backend Developer to join our engineering team. You will be responsible for building and maintaining scalable backend services that power our applications. This role requires strong problem-solving skills and experience with modern backend technologies.

Key Responsibilities

- Write clean, maintainable, and well-documented code
- Develop microservices architecture using modern frameworks
- Monitor application performance and troubleshoot issues
- Collaborate with frontend developers to integrate APIs
- Optimize database queries and ensure data integrity

Required Skills

- Go
- MongoDB
- Node.js

Preferred Skills

- REST API

- Python

- Spring Boot

- Java

Requirements

- Bachelor's or Master's degree in Computer Science, Engineering, or related field

- Strong problem-solving and analytical skills

- Excellent communication and teamwork abilities

- Passion for technology and continuous learning

- 5+ years of professional experience

- Experience mentoring junior developers

- Strong leadership and architectural skills

Benefits

- Stock options

- Health insurance coverage

- Career advancement opportunities

- Latest technology equipment

- Paid vacation and holidays

- Parental leave

- Modern office environment
