Job Description

As a Cloud Infrastructure Engineer, you will be instrumental in automating our infrastructure and improving our deployment processes. We need someone who can build reliable CI/CD pipelines and ensure our systems are scalable and secure.

Key Responsibilities

- Manage cloud infrastructure and resources
- Build and maintain CI/CD pipelines
- Troubleshoot production issues and incidents
- Implement security best practices and compliance
- Automate infrastructure provisioning using IaC tools
- Optimize deployment processes and reduce downtime
- Document infrastructure and processes

- Monitor system performance and implement alerting

Required Skills

- Terraform
- GitLab CI
- CI/CD
- Ansible
- S3
- Azure

Preferred Skills

- GCP
- Kubernetes
- AWS

Requirements

- Bachelor's or Master's degree in Computer Science, Engineering, or related field
- Strong problem-solving and analytical skills
- Excellent communication and teamwork abilities
- Passion for technology and continuous learning
- 5+ years of professional experience
- Experience mentoring junior developers
- Strong leadership and architectural skills

Benefits

- Flexible working hours
- Stock options
- Latest technology equipment
- Remote work options
- Gym membership
- Health insurance coverage
